"As to the damage suit," Miss La Verne continued, "Miss Roberts has done me irreparable harm by stating that. GOVERNOR WILL ATTEND ANNUAL CONFERENCE

Will Meet Governors of Other States in Wisconsin, November 10-14. Governor Stuart announced yester-

day that he had so well succeeded in arranging his plans as to be able to attend the Conference of Governors, which is to be held in Madison, Wis., November 10 to 14.

Although eager to be present at the sessions, Governor Stuart was doubtful until yesterday of his ability to find time to devote to the annual conference of chief executives of the States. He has, however, formally advised Secretary M. C. Riley, of the executive board of the conference, of his intention to attend, unless some unforceseen obstacle in the nature of imperative business prevents him from making the trip to Wisconsin.

Unusual importance is attached to the sessions to be held by the Governors this year. The promotion of greater uniformity in State legislation, greater co-operation between State and nation, and greater efficiency in State administration are the functions and purposes of the Governors Conference. Indications point to the largest attendance this year in the history of the association.

According to what Patrolman Harris learned from persons in offices on the tenth floor of the building, Mrs. Todd had been walking alimlessly up and down the corridors there for nearly two hours, when she suddenly approached an open window. Her actions had attracted the attention of several, and they had been watching her unobserved. It is said that the woman leaned far out of the window, and seemed about to throw herself out, when several men called and started for her. She turned to them and demanded to know why she had been addressed.

The police were summoned, but before any of the several officers who had been dispatched to the building arrived Mrs. Todd had descended on an elevator and had gained the street, Patrolman Harris traced her to Eighth and Franklin Streets and escorted her back to the Mutual Building and later to the station.

Mrs. Todd refused to discuss the incident with the police, maintaining a strict reserve until the arrival of her husband. Although eager to be present at the
